

## Downtown Cartersville Mural Project RFP Questions

### **Question (11/19/2021)**

I understand that I need to have the insurance in order to apply the mural work. Which insurance do I need to get? Is general liability insurance shall I look for?

### **Answer (11/19/2021)**

Yes, any person working on the mural would need to be covered by general liability insurance.

### **Question (11/17/2021)**

Before proceeding, is there anything specific to the design that the community of Cartersville is looking for? Would you all be interested in abstract work, figurative or historic?

### **Answer (11/17/2021)**

In all honesty, we didn't want to curtail the design with too many outside constraints, but what I think would work best in Cartersville would be something that is broadly appealing to the community at large. For example, political or social commentary would not work well unless it was positive and uplifting. I would encourage you to get to know Cartersville and Bartow County as you consider your design.

With five different opportunities for an artistic "conversation", so to speak, I would imagine that a combination of styles or elements could be welcome, for instance, one panel may be more abstract while another may be more figurative. In any event I would see the narrative as an important supporting document for helping the jury understand your vision.

### **Question (11/16/2021)**

It looks like the planters need significant cleaning. Are you expecting the artist to take care of that or will you be leveraging resources from your dept. of public works to power wash and prepare surfaces?

### **Answer (11/16/2021)**

Yes, we would have public works pressure wash the planters to prepare the surface.
